

Dear Colleagues,

I wanted to share information about an upcoming **free webinar: “A Practical Guide to Going Smoke-free for Multi-unit Housing.”** The webinar is presented by the Washington State Department of Health, and includes information on the benefits of going smoke-free and best practices for policy implementation.

More than 200 industry professionals have registered for this webinar in the past. On average, about 90% of attendees say it increases the likelihood they’ll go smoke-free and their confidence in their ability to do so.

This year’s webinar features industry leaders, including a representative of Capital Insurance Group who will share how CIG decided to provide a 10% insurance premium credit for their no-smoking properties. The webinar will also feature:

Ron Oldham, Executive Director of the Pacific Northwest Regional Council of the National Association of Housing and Redevelopment Officials
Amanda Clark, Portfolio Manager, Guardian Management
Ken Stewart, Compliance & Commercial Lines Manager, Capital Insurance Group

The webinar is Tuesday, December 13, 11:00 a.m. – 12:00 p.m. and registration is filling quickly. Please register for free at www.SmokeFreeWashington.com/webinar.
